RRC-400-U ULTRASONIC COUNTER

The RRC-400-U Ultrasonic Label Counter is a Large-Form, off-line Reel-to-Reel Label Counter that provides the ideal all-in-one solution for counting very large and heavy rolls of labels. This model is made to handle opaque _and_ transparent labels with gaps between them, on opaque _or_ transparent liners. The dual motors can be set to run in either direction, and the switch-selectable "SYNC" mode can be used to maintain optimum tension.
