

RIBBONS FROM THE LEADER

Enjoy complete peace of mind using the brand of the worlds leading TTR manufacturer

- ▶ **35 years' experience** in developing Thermal Transfer ribbons
- ▶ **Long-term investments** to benefit the future of this technology
- ▶ Ribbons made to the **highest quality and environmental standards**
- ▶ **Ribbon performances** tested on all types of Thermal Transfer printers
- ▶ All ribbons are **100% designed and manufactured by ARMOR**
- ▶ Supporting a responsible identification which cares about **consumer health and safety**

Wax / Wax-Resin / Resin

A range tailored for all your printing needs

- ▶ **The most comprehensive** Thermal Transfer ribbon range in the market
 - **Competitive** ribbons to cover the most price sensitive applications
 - **Standard** ribbons that offer the widest scope of performances
 - **High-performance** specialty products for the most stringent requirements
- ▶ Roll families are identified **by colour codes**, reducing sometimes costly ribbon identification errors
- ▶ A full range of colour ribbons is also available

UNPARALLELED QUALITY

Industrial perfection from raw materials' selection up to the final packaging

- ▶ Ribbons made with the **finest components**: PET base film, chemical components, colour pigments, ribbon cardboard cores, decorative leader, packaging
- ▶ Ribbons slit with sharp blades to ensure a **neat finishing** and no dust residue
- ▶ **70%** of **inkanto** ribbons are slit with robotized machines to guarantee quality consistency
- ▶ Each ribbon is wound with a specific tension adapted to the ink grade ensuring an **optimal functionality** and good aging
- ▶ A total of **23 certifications** delivered to ARMOR production sites for Quality, Safety, Environment and Energy Management Systems

Free CLEANING WIPE

Each box of inkanto ribbons contains a print-head cleaning wipe

- ▶ **Maximize the print** performance of your print-head
- ▶ **Reduce the risks** of poor print results
- ▶ **Cleaning the print-head** is the first corrective action to take when the print result is unsatisfactory
- ▶ **Easy to use** by any personnel, the cleaning wipe is attached to a simple user guide

CERTIFICATE OF CONFORMITY

An inkanto ribbon has nothing to hide, you get all quality data with it

- ▶ An online Certificate of Conformity for each ribbon accessible with the QR code **on each box and ribbon label**
- ▶ Read it, download it or print it, **it is very easy**
- ▶ **Contains all product information** (product description, certifications and printer compatibilities)
- ▶ A simple **online form to report** any technical issue or question

LIFETIME GUARANTEE

Risk free ribbons allow you to focus on your business fundamentals

- ▶ inkanto ribbons are **guaranteed for life** against any manufacturing defect
- ▶ The guarantee is included on the products and their documentations so that your operators are fully aware
- ▶ Storage conditions and handling instructions appear on the box

VISIBILITY/READABILITY

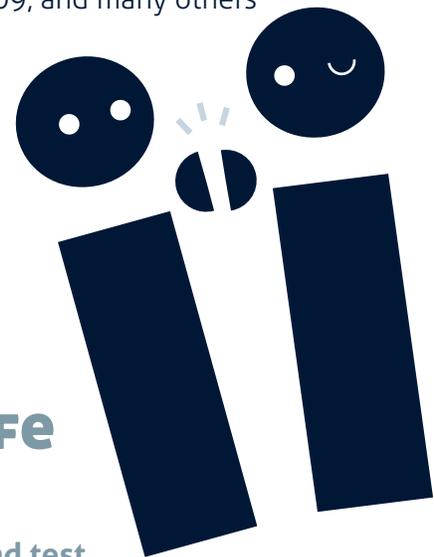

An inkanto ribbon is easy to use: all important information is clearly visible

- ▶ inkanto ribbon families are **identified by colour codes** helping to reduce the possibility of errors
- ▶ Very legible labels on the box and ribbon to highlight the **important information** about the product:
 - Dimensions
 - Code 128 for the part number
 - Traceability information
 - Production date

RIBBON CERTIFICATIONS

inkanto ribbons fulfil safety and industry specific requirements

- ▶ **Certifications and approvals** covering inkanto ribbons help you meet the requirements of very demanding applications and environmental concerns
- ▶ **inkanto ribbons** can meet the following certifications: Food Contact Europe and USA, Heavy metals, Halogens, REACH, California Proposition 65, UL 969, Drug Master File, BS5609, and many others
- ▶ Your industry specific regulations will be investigated

Make a safe CHOICE

You can easily see and test inkanto ribbon performances

- ▶ Make **your first opinion** with the **real printed labels** visible on each inkanto product datasheet
- ▶ You can use the **inkanto ribbon sample offer** to validate your choice
- ▶ Each **inkanto** ribbon is available in individual sample boxes: providing the opportunity to **test in your own environment**
- ▶ Ribbon samples are made with the same care and same identification details as standard **inkanto** ribbons: **you won't be disappointed**
- ▶ Each sample box shows the product data for **easy ordering**
