

Add professional training and template design to your BarTender software

Whether you need to get up to speed quickly on the new BarTender® system, learn the basics of template design, or take a deep dive into complex design topics, BarTender Professional Services helps you get the most performance and business value possible.

BarTender Professional Services are available for the Professional, Automation, and Enterprise editions and are delivered by the Technical Services experts who provide world-class support every day to BarTender customers around the world.

BarTender Quick Start

Hit the ground running with a two-hour remote¹ training session, led by a Technical Services specialist who will take you from installation to the design and printing of your first labels. We will connect remotely to your PC where you can join to watch and learn about the following topics:

- ▶ BarTender installation^{2,3}
- ▶ Printer driver installation^{2,3}
- ▶ Overview of the BarTender interface
- ▶ Guided template design
 - ▶ Creating blank templates
 - ▶ Connecting to databases³
 - ▶ Adding/configuring template objects
 - ▶ Setting up RFID
 - ▶ Data manipulation through transforms
 - ▶ Creating print-time prompts
- ▶ Printing BarTender documents
- ▶ The following BarTender companion applications:
 - ▶ Print Station
 - ▶ Data Builder

Quick Start does *not* cover:

- ▶ Any BarTender companion applications not listed above
- ▶ Integration with third-party applications
- ▶ Reviewing or writing Visual Basic scripts⁴

Part # PS-QUICKSTART, US\$395 per user

¹ Remote training is conducted via conference tools such as WebEx or GoToMeeting, providing both audio and visual instruction.

² Requires Administrator-level credentials on the PC. This should be arranged prior to training.

³ May require access to network resources. This should be arranged prior to training.

⁴ Script writing by BarTender Professional Services will incur additional fees.

Basic Template Design

A great starting place for new BarTender template designers, this remote,¹ 1.5-hour training course will teach you everything you need to design labels in BarTender including:

- ▶ An overview of the BarTender interface
- ▶ Design principles in BarTender
- ▶ Creating custom stock and page sizes
- ▶ Creating and formatting text, barcode and shape objects
- ▶ Using text transformations
- ▶ Using text wrap and auto-fit in label design
- ▶ Importing and using images into label design
- ▶ Assigning data types to data (date, time, currency, etc.)
- ▶ Creating print-time forms
- ▶ Creating and managing data sources
- ▶ Connecting to databases

Part # PS-TRNGBASICDSGN, US\$185 per user

Advanced Template Design

This remote,¹ 1.5-hour training course is for experienced BarTender users who need to create and maintain complex label templates. You will learn about Intelligent Templates™, data processing and manipulation, and more:

- ▶ Using multiple BarTender templates
- ▶ Use intelligence to conditionally print templates, layers, objects and data sources
- ▶ Using advanced data transforms
- ▶ Creating and using BarTender components
- ▶ Creating and using global data fields
- ▶ Introduction to form and document actions
- ▶ Using data-sourced printers
- ▶ Pre-requisites: Basic Template Design course (or equivalent BarTender experience)

Part # PS-TRNGADVNCDSGN, US\$185 per user
