DATASHEET

Entrust Instant ID

HIGHLIGHTS

Design, Issue, and Manage Credentials Anywhere, Anytime

Entrust Instant ID lets you create, issue, and manage secure IDs and credentials. It empowers organizations to meet a wide range of application requirements, from basic photo IDs to high-assurance credentials. Plus, you can easily scale from a single workstation or user to a multi-workstation, enterprise-wide application with more functionality.

- Great user experience
- Out-of-the-box integration
- Highly configurable

KEY FEATURES & BENEFITS

- Works with the latest technology, including Windows 10 and 11 and Microsoft Edge
- Built to work as part of an integrated system with Entrust printers, supplies, and support; third-party printers are also supported
- A browser-based platform makes it accessible for data capture and issuance from anywhere on the network, including mobile devices
- Pre-built configurations for smart card issuance are available and easy to set up through the user interface
- Only pay for operators who actively use the software at the same time
- Easily integrates with third-party databases or applications, including Microsoft Access, SQL Server, MySQL, Oracle, DB2, and Active Directory

SECURING A WORLD IN MOTION

HOW IT WORKS

Integration of Instant ID software allows large organizations to easily deploy and manage their credentialing program across a network of workstations.

Centrally install and deploy across the network: Install and license Adaptive Issuance Software on one server and deploy it across your entire network without the need for a physical dongle.

Manage all of your data from one central server: Collect and manage data from all of your satellite devices on one central server.

Manage all users from one central location: Role-based access control restricts and grants users access to specific functions. Password reset for users is self-service.

Four powerful editions. One common platform.

Instant ID Express: Take your first step into the world of ID card designing and printing.

Instant ID Plus: This software builds on the functionality of Instant ID Express to provide fundamental tools for essential ID card and credential designing and printing, including reporting capability and SQL integration.

Instant ID Professional: Get even more capabilities with this highly scalable edition that builds on the designing and printing functionality of Instant ID Plus. The Professional edition allows for concurrent users and centralized management of users and data.

Instant ID Enterprise: The most advanced, scalable, credentialing software in the suite, the Enterprise edition includes all previous edition features plus sophisticated design capabilities for ultimate program flexibility. It also integrates with access control and HR systems.

PAC Integration (Nedap AEOS, ISONAS Pure Access)				*
Field-based access				*
Number of concurrent users	1	1	1 to 20	1 to 200
Number of credential designs	10	15	25	999
Number of workflows	up to 10	up to 15	up to 25	up to 50

*Only available for Sigma DSE printers

System Requirements

Operating System:
Microsoft Windows 10 / 11

Mobile Operating System:
iOS, Android, Microsoft Surface

Web Browser: Chrome, Internet Explorer v10 or 11, Edge

Memory: 4 GB (8 GB recommended)

Hard Drive: 1 GB of computer drive space

Desktop or PC Screen Resolution:
1360 x 768 (minimum)

Instant ID Suite Standard Features

Credential Design

- Front and back card design, pre-designed card templates
- Variable/static text field, photograph field, variable/static graphic field, date field
- Magnetic stripes, bar codes, and QR code

Workflow

- Text field, static text field, static graphic field, date field, print count field
- Auto-sequence field, check box field, list field
- Text field mask, field option – read only, hidden, mandatory, searchable

Smart Card Stock Supported

- MiFARE Classic
- MiFARE DESFire EV1, EV2
- HID Prox
- HID iClass
- Sony FeliCa

Smart Card Reader Supported

- Identiv
- DUALi (single-wire)
- DUALi (two-wire)
- HID OMNIKEY (single-wire) See TC and printer coupler for add'l details

Printer Support

- Adaptive Issuance Instant ID integrates with non-Datacard devices

Database and Data Import

- Import data from CSV, ASCII file
- Text field, static text field, static graphic field, date field, print count field
- Mobile Capture, Logitech, and Canon DSLR

Photo Capture

- File input, TWAIN, DirectShow, web browser

Language Support

- English, French, German, Japanese, JIS Kanji, Portuguese (Brazilian), Simplified Chinese, Spanish
- Localization utility for other languages
