# VALUESCAN III

AUTO-SENSOR1D
BARCODE READER

Today's market demands high-performance barcode reading with speed, accuracy and data integrity. ID TECH's latest mid-range 1D barcode scanner is the ValueScan III, which is ideal for any merchant environment looking to support barcode reading with a scanning range up to 12 inches from the barcode. The ValueScan III features an auto-sensing mode, allowing the scanner to operate while resting in its stand. When the scanner detects a barcode is present, it will automatically activate, allowing users the freedom of scanning barcodes without a scanner in their hands. With two hands free to manage other tasks, the ValueScan III provides added productivity.
