

Encrypting Check Scanners Extended Maintenance

Financial institutions and retailers rely on MagTek[®]. Millions of check transactions every day are processed with MagTek's Encrypting Check Scanners. For financial institutions and retailers of all sizes, MagTek's scanners deliver flexibility, accuracy and value. MagTek offers extended maintenance for many of its encrypting check scanners.

Premium Service Plan (PSP)

The PSP extends the benefits of the Standard Limited Warranty. In addition, it includes services which are not covered under the Standard Limited Warranty: All labor and spare parts associated with evaluating, repairing, cleaning and performing preventative maintenance are included in the plan. The PSP does not include service to repair damage to the product resulting from accident, disaster, misuse, abuse, or non-MagTek modification of the product. Cables and print cartridges are not covered. The PSP can be purchased at any time prior to the expiration of the Standard Limited Warranty. The contract term for the PSP itself begins one year after the original ship date of the product. Whether PSP is purchased at the time of order or any time during the warranty period, the benefits are conferred immediately from the point of PSP purchase to the end of the contracted term.

Standard Limited Warranty

12 Months from date of shipment from MagTek (See Limited Warranty for detailed coverage) at no additional charge.
