Pioneer

CT18

The CT18 widescreen touchscreen computer has become an industry standard within demanding working environments.   The crisp, scratchproof 18" touchscreen (with optional embedded privacy filter) can be wall or desk mounted and is built for exceptional durability. The CT18 can withstand millions of user touches while also resisting bacteria and liquid spills.

With a min. warranty of 3 years, all computers are built to your unique specifications and shipped from California, USA.
