Attention: Carefully read all instructions and review the images before installing this product.

**1. Rear Facing Screen:**

This holder is designed to keep the screen facing away from the operator when docked and supports the device with the pistol grip. This product includes a tilt-swivel that is loose in the packaging. This can be used to attach to the back or the bottom of the holder.

**2. Optional Tilt-Swivel:**

The holder and Tilt-Swivel both feature the AMPS hole pattern that is common in ball, pedestal, pipe, cart and vehicle mounts. The included self-tapping screws can be used to attach the tilt-swivel to the bottom or the back of the holder to change the docking angle up to 15 degrees in any direction.

**3. Mounted to the back:**

Using the included M4 fastener pack, the holder can be attached to any compatible mounting platform. Use the included lock nuts and select the appropriate length fastener to go through the backplate of the holder and the mount then attach using the included lock nuts.

**4. Mounted to the bottom:**

Using the included M4 fastener pack, the holder can be attached to any compatible mounting platform. Use the included lock nuts and select the appropriate length fastener to go through the backplate of the holder and the mount then attach using the included lock nuts.
