

## Choice Series Cash Drawer

### The Features Businesses Know and Love – with Added Strength and Benefits

Available in 14" x 16" and 16" x 16" sizes and glossy black and matte white finishes, with an optional stainless-steel front design, the Choice Series cash drawers are available in the sizes and styles businesses demand. Equipped with standard till sizes, the 14" x 16" cash drawer features a 4 Bill-5 Coin till and the 16" x 16" model includes a 5 Bill-5 Coin till, with additional sizes available to fit a business' specific needs.

Stronger than their competition, Choice Series cash drawers feature a reinforced top creating added strength to securely support POS terminals and tablets. The Choice Series is a one-key cash management solution enabling both the cash drawer and locking till cover to be operated by a single hinged key. Managers will love the convenience of a single hinged key that will not break off in the lock.

Simply connect the cable included with your Choice Series cash drawer to the drawer kick of your POS printer and enjoy years of reliable operation tested to over 1 million cycles and backed by a three-year warranty. Available options for the Choice Series include under-counter mounts, locking till covers, over 10 different lock set options, and a secure dual-cash cable to enable the Choice Series to work as either cash drawer 1 or cash drawer 2.

The Choice Series complements two other Star Micronics cash drawer lines: The Value Series of affordable, standard cash drawers, and the Max Series of premium cash drawers with added security and design features.

The cash drawer features a dual-bill till which accommodates multiple currencies and allows cashiers to secure coins, large

bills, and bill stacks under the till until they are ready to be claimed by the store manager.
