

THERMAL TRANSFER RIBBONS

Supported by a full range of ink formulations, you can be confident that your Genuine TSC ribbon will meet the demands of your label printing application. Enjoy consistent, premium quality and optimized performance through your TSC printer.

The TSC range of thermal transfer ribbons:

SWX – TSC STANDARD WAX

- An economically priced ink formulation providing excellent print quality
- Suitable for standard labeling applications
- Compatible with most coated and non-coated paper labels

PWX – TSC PREMIUM WAX

- Resin-enhanced wax
- Best scratch and smudge resistance for a wax ribbon
- Supports high speed printing
- Excellent print quality on a wide variety of paper and film materials

SWR – TSC STANDARD WAX/RESIN

- General purpose wax/resin formulation
- Superior print quality on low-end synthetics
- Good scratch and smudge resistance

PWR – TSC PREMIUM WAX/RESIN

- Designed to print on a wide range of coated and uncoated papers and films
- Powerful resistance against chemicals
- Abrasion resistant

SRE – TSC STANDARD RESIN

- Excellent abrasion and solvent resistance
- Extensive adaptability to a wide range of film materials
- Supports high speed printing

PRE – TSC PREMIUM RESIN

- Designed for the most extreme environmental conditions
- Highest scratch and solvent resistance
- Compatible with a wide range of specialty/exotic materials

SPECIALTY RIBBONS

- Colored wax and resin
- Extreme heat resistant
- Garment care

By using Genuine TSC supplies through your TSC printer, you're making "The Smarter Choice."
