HOLSTERS

When to use a Holster

Holsters provide Easy-in, Easy-out access to your device, perfect when users need to frequently access their device. Industries that typically utilize holsters include logistics, warehousing, and retail. Personal holsters work best for a user on the move.

Common Device Types

Scanners

Mobile Computers

Tablets & Phone Sleds

Quick Access

- Great for users on their feet that frequently need to use their mobile device.
- Offers protection and efficiency with quick access to the device.
- Easy-in, Easy-out access to your device for fast paced scanning.

Retaining

- Perfect for users that sit, climb or crawl while performing job.
- Provides easy access to your device.
- Retaining strap prevent device from falling when mobile.

HOLSTER

Sling

- Easy-in, Easy-out access to your device for fast paced scanning.
- Built in strap allows you to wear across your body, waist or even leg.
- Offers protection and efficiency with quick access to the device.

When to use an OP Case

OP Cases protect your device from accidental drops while in use. OP Cases also adapt your mobile device to you, allowing it to be worn on your belt, a shoulder strap, or even your wrist. They offer a multitude of protection and usability options.

OP CASES

Common Device Types

Scanners

Mobile Computers

Printers

Tablets

Boots

- Custom boot design to fit any gun handle device.
- Protects your device from accidental falls.
- Insulated OP Case option for freezer and subzero environment.

DirectTouch

- Perfect for touch screen devices and those which use a stylus and direct contact with the screen.
- Provides a tactile feel of the keypad which is especially helpful for gloved hands.
- With a direct view of the screen, glare is reduced.

EasyCharge

- Great for when your device requires daily charging.
- No need to remove the case to charge your device in a cradle.
- Offers additional protection from accidental drops and scratches.

OP CASES

Heated & Insulated

- Perfect for freezer and sub-zero environments.
- Minimizes heat loss, allowing you to work longer.
- Special pockets hold heat packs to keep your device operational in cold environments.

SoftTouch & FaceProtect

- Great for users that are in a wet, dirty or dusty environment.
- Protects from particles, residue, and moisture that can invade your mobile device and cause a malfunctioning keypad or screen.
- Provides clear cover over screen and/or keys to keep dirt and grime out.

OP CASES

Industrial design

Single strap design

Slim strap design

WristMount

- Ergonomic, comfortable WristMount Design.
- Great for when your hands have to be free for work but also need access to your mobile device.
- Rotates to allow landscape or portrait orientation of device.

When to use a Mountable Solution

Mountable Solutions are great when a device is tied to a location and may have multiple users. This is very common with forklifts and workstations. We can adapt a solution to be mounted on any surface or object.

Common Device Types

Mobile Computers

Scanners

Metal Bracket

- For when you need a more rugged solution!
- Easily withstands the rigors of warehouse jobs.
- Safe to use in food processing operations.

MOUNTABLE

Ram Mount

- Secures the device on a forklift or vehicle.
- Keeps device securely in place, even when jostled, allowing you to continue your work hassle-free.
- We offer fabric or Kydex, with a variety of attachment options to suit any need.

Zip Ties/Screws

- Great for when your mobile device is used primarily in one location by several users.
- Mounting holes allows holster to mount on wall,
- Cable ties allows holster to mount on forklift or shelf.

When to use a RoutePad

When your job requires the use of a mobile computer and printer working together, an UltimaCase RoutePad is the way to go. RoutePad is the ultimate solution for mobility of devices while keeping everything organized. All your necessary devices, in one convenient case, ready to tackle any job. We offer four specific kinds of RoutePads, each denoted by their unique level of flexibility.

Common Device Types

Mobile Computers, Tablets,
Payment Devices & Printers

Compact

- Carry your device, printer, and accessories in one convenient case.
- Easy-to-carry in tight spaces.
- Remove your device from the holster, conduct transaction, print receipt - ready to go!

Express

- Lightweight pad to carry printer and your device.
- Both your printer and device are securely attached to the board.
- Handle and D-Rings offer a variety of carry options, available on a variety of our cases.

ROUTEPADS

Full

- Mobile office for route sales person.
- Removable OP Case or holster allows you to conduct transactions and print receipts. Includes accessory pouch and document holder.
- This is the complete solution!

InstaPrint

- Lightweight and compact case to carry printer and device only.
- Great for quick jobs and on-the-go professionals needing to maximize efficiency.
- Case allows the device to attach to the user by belt or strap.

UNIQUE APPLICATIONS

HealthCare

- Perfect for patient care applications in and out of a hospital.
- Easy wipe-down to meet HealthCare requirements.
- Rugged materials withstand sanitizing chemicals for longer life.

UNIQUE APPLICATIONS

I-Safe

- Perfect for applications in the oil & gas industry.
- Prevents explosions when hazardous or flammable substances are present.
- We can design a solution for your particular device, just contact us.

Leather

UNIQUE APPLICATIONS

Safety

Reflective

- Perfect for transportation applications.
- Utilizes 3M reflective tape.
- Helps keep users visible and safe.

ACCESSORIES

Handle Sleeves

- Helps reduce wear and tear on your device's handles.
- Sleeves help provide comfort for extended use.

Key Skins

- Reduce wear while keeping dirt and grime off your device's keypad.

Retractors

- Available with various retraction forces.
- Nylon/Kevlar line can be locked at desired length.

ACCESSORIES

Sun Visors

- Reduce glare on screens.
- Great for working in the sun or bright light.

Shoulder Straps

- Adjustable with slides.
