SRD650
All-in-one solution pack

Today's handheld customer requires solutions that provide high quality products along with easy and quick software. Unitech understands the market needs and proudly introduces the Solution Ready Design SRD650.

The SRD650 is not just a new handheld terminal, but it is a member of the Solution Ready Design series. It offers a solution to many different users in the channel, which is easy and quick to integrate.

Solution Ready Design
Designed for any business environments, the SRD650 gives you the flexibility and control needed to increase productivity and efficiency in all of your data collection. This SRD650 Solution Ready Design just has what it takes to keep you small or large business running smoothly.

Start working immediately
As with most handheld terminals you will probably want to install some additional applications, adjust some modifications or create your own application without high development costs. Fortunately the SRD650 has multiple methods of accomplishing this.

The SRD650 package contains a new generation high performance Unitech terminal and comes with a software solution, in such a way that the user does not have to worry about anything. In an instant you can easily and fast create your own application with the Kalipso Basic application generator or use one of the pre-made apps and start working right out-of-the-box. With the Unitech SRD650 you can start working immediately!

The ultimate user-friendly experience for your business
The Unitech SRD650 includes a highly reliable, ergonomic and light-weight handheld terminal which provides superior performance for one-hand operation.

The SRD650 terminal is equipped with a 1D laser, built-in 2.4" color QVGA touch screen and a centred larger scanning key which delivers a new level of easy operation. It also offers Bluetooth, Wi-Fi and wireless LAN 802.11 b/g radios for real-time data collection.

It is free, it is quick and it is easy. Do it yourself and get started now!

The SRD650 is a solution including access to pre-made applications, as well as a state of the art development tool embedded. In this way Unitech offers a solution ready design to answer current market needs.

The SRD650 solution pack
- Quick and easy implementations
- Access to free pre-made applications like Inventory Manager, Quality check, Asset management and many more...
- Customize pre-made applications
- Easy and fast application generator to create your own applications
- High quality Unitech handheld terminal
- Everything in one box
- The most price competitive offer in current market
