WaspLabeler +2D

BARCODING SOLUTION

WaspLabeler +2D makes it easy to design and print barcode labels for your business. Getting started with WaspLabeler +2D is simple – select from more than 100 pre-designed label templates, build a custom label, or start from scratch on your own design. Then add data to your labels manually or by connecting to an external data source, including Microsoft Excel®, Microsoft Access®, and QuickBooks®. When your label is finished, simply print to any networked Windows® printer.
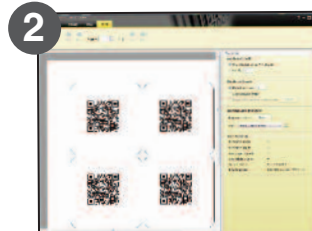

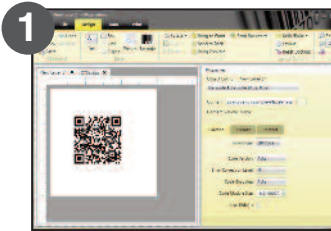

Common applications include:

- Creating labels to track your assets or inventory
- Managing direct mail using address labels and envelopes with PostNet zip codes
- Adding labels featuring time and date stamps to perishable goods
- Generating shipping and compliance labels

WaspLabeler +2D supports the following 1D and 2D barcode symbologies:

▶Aztec Code	▶Codabar	▶Code 128	▶Code 39
▶Code 93	▶DataMatrix	▶EAN/JAN-13	▶EAN/JAN-8
▶Interleaved 2 of 5	▶ISBN	▶ITF14	▶MaxiCode
▶Micro PDF417	▶Micro QR Code	▶MSI	▶PDF417
▶PostNet	▶QR Code	▶GS1-14	▶GS1-14 Stacked
▶GS1 Stacked Omnidirectional	▶GS1 Truncated	▶GS1 Expanded	▶GS1-Limited
▶UCC EAN 128	▶UPC-A	▶UPC-E	

Productivity Solutions for Small Businesses

▊ FEATURES

▶ Supports QuickBooks (2008 or later), including custom fields

▶ Import data from Microsoft Office®, Microsoft SQL Server, ODBC data sources, QuickBooks, comma separated files, or other external databases

▶ Input data using the keyboard at print time

▶ Access more than 100 label templates

▶ Apply multiple filter and sort criteria for each label

▶ Enhance serialization includes alpha and user-defined lists

▶ Import BMP, JPEG, PNG, TIFF, GIF, and ICON images

▶ Resize and rotate graphics and images

▶ Import images onto label design, link to original file, or retrieve from a database

▊ BENEFITS

▶ More than 100 pre-built templates make it easy to create inventory labels, asset tags, address and shipping labels, ID badges, coupons, and more

▶ Rapidly design customized labels, including barcodes, text, and graphics

▶ Generate barcode scan sheets or shadow books so that barcodes for small or difficult to tag items are easily accessible

▶ Automatically serialize your inventory or asset tags to simplify tracking

▊ SYSTEM REQUIREMENTS

▶ 32-bit or 64-bit version of:
  - Windows 8
  - Windows Vista®
  - Windows XP (SP3)
  - Windows Server 2003 | 2008

▶ Pentium 4 or better processor

▶ 512 MB RAM (1 GB recommended)

▶ 2 GB of available hard drive (10 GB recommended)

▶ 1024 x 768 resolution and 16-bit high color or better

▶ CD-ROM Drive for software installation

▶ Compatible with Microsoft Office XP, Microsoft Office 2003, Microsoft Office 2007, and Microsoft Office 2010 (32-bit version only)
