

Better Communications Greater Contributions

Help workers solve problems on the spot.
Put answers at their fingertips and co-workers
and customers within their reach. Connect people,
data and workflows for a smarter, more
responsive operation.

Create a Smart, Connected Workplace

Improve employee efficiency and enhance customer service with the fully scalable suite of communication tools. Connect front-line employees, so they can coordinate and collaborate across spaces small or large.

Retail

Easily answer customer questions and locate products with dynamic collaboration between the front and back of the store.

Meet demand for Buy On-Line Pick-Up in Store (BOPIS), click and collect, curbside pickup and on-demand assist with the tap of a button.

Satisfy employees; give them the ability to work multiple roles, using preloaded profiles. Protect your staff by notifying others of emergencies via calling and alert features.

Healthcare

Respond to patients faster with staff location tracking, to quickly get essential and qualified caregivers on the scene.

Keep employees safe with emergency calling, duress features and location services to see where everyone is.

Offer staff flexibility to work in multiple departments and roles with secure access and device sharing capabilities.

Manufacturing

Prioritize safety with critical real-time alerts and alarm notifications such as Drop Detection and duress signals.

Optimize delivery times by rerouting drivers to meet customers' delivery expectations.

Simplify communications by sending instant alerts about new priorities and broadcasting messages to your entire team at once.

Faster Communication, Easier Collaboration

Keep workflows intact and minimize disruption on the front line. Fill in labor gaps. Broadcast messages to everyone in an instant. Keep communication secure and reliable. Use one platform on a single device. Give teams all the communication options they need to stay in touch and focused on the job.

PTT Express:

The cost-effective way to connect workers, broadcast messages and get in touch, instantly.

Push-to-Talk: Connect teams at the push of a button using cellular data

Made for Android™: Adopt easily on your Zebra Android devices

Fast Deployment: Use right from the box with no server or PBX integration required

Protect Calls: Keep calls secure with enterprise-grade security

Cross-Device Communication: Connect and communicate between departments and on different types of Zebra mobile computers

PTT Pro:

The feature-rich solution that turns your front line's mobile devices into walkie-talkies.

Push-to-Talk: Access reliable, instant PTT calling and multimedia messaging between individuals using cellular data or Wi-Fi

Enterprise-Grade Communication: Get faster, more efficient and secure communications on a trusted solution, rather than relying on personal devices

Bring Your Own Device: Run on your own Zebra Android devices or add to a third-party iOS®/Android device or Windows® desktop

GPS: Track and locate workers near and far, in the aisle or out in the field

Drop Alerts: Know when a Zebra device drops, or workers are unresponsive so you can act quickly

Emergency Alert Prioritization: Send emergency alerts, overriding any calls in progress, to reach every employee at once

Hands-Free Voice Communication: Drive productivity by enabling workers to communicate without touching their mobile devices

IoT Integration Service: Connect sensors to staff devices, pushing automatic alerts about customer assistance, product issues and more

Enterprise Voice:

Powerful PBX-based voice calling features on Zebra mobile devices give employees the ability to connect and collaborate anywhere, without being tethered to their workstations.

Easy Implementation: Plug into existing infrastructure for quick, easy deployment

Advanced Extension Management: Assign incoming calls based on role for fast, accurate responses from the right employee

Intuitive: Save time on training and onboarding with simplified PBX features such as the ability to manage up to four different extensions, join different departments or select multiple roles on the fly

Customize Your Way: Design the interface to work best for your teams with the features and PBX functions that align with your organization

All-in-One Solution:

The complete solution packed with all the functions and features of PTT Pro and Enterprise Voice, plus the added bonus of Profile Manager for device sharing made easy.

Powerful Combination: Create synergies and unlock untapped potential when you combine PTT Pro, Enterprise Voice and Profile Manager on one integrated communication platform

Device Sharing: Share devices with multiple employees and automatically configure each to match the individual worker's role and needs

PBX Integration: Minimize hold times and speed up workflows by automatically routing incoming calls to the right department or specific person with the Voice add-on

Configurable: Customize rules for each role, control feature access and more
